Discover our range of high-efficiency wind turbines designed for various applications and environments. Our turbines are engineered for maximum reliability and performance. From planning support to ...

Thanks to our 100kW wind turbine designed for industrial and commercial self-use energy generation. Check out all the technical information of the wind turbine in our catalogue.

Taller turbines with longer blades produce more electricity. Almost all wind turbines in use today are horizontal axis turbines. The vertical axis turbine looks like an ...

Get in-depth technical information and performance data for our 100 kW Wind ...

Requires less area to generate the same amount of energy as horizontal wind turbines. Their design facilitates access to wind turbine components, making ...

The service life of variable pitch wind turbine is more than 30 years, the generator efficiency is more than 90%, the annual power generation is increased by more ...

100kW semi-professional horizontal wind turbine (100 000w). For complete autonomy! The solution for large households and/or farms that want become ...

PVMars provides a high-quality 100kW wind turbine with a controller, IGBT inverter, and batteries. Full set 100kW wind power plant for factory, large supermarket, or hotel.

Aeolos-H 100kW wind turbine used three phase direct-drive generator, no ...

The SH Series is a versatile line of vertical axis wind turbines spanning 1KW to 200KW--engineered to perform in turbulent wind conditions and constrained spaces (e.g., urban rooftops, compact farms).

100kW wind turbine generator
