Introducing our 50kW / 100kWh high-voltage outdoor energy storage solution designed for commercial and industrial (C& I) applications.

Boasting battery capacities of 100 kWh and 200 kWh, our system is purpose-built to supply unwavering, enduring power to both industrial and commercial ventures. ...

100 kWh battery high-voltage energy storage system has an all in one solution design. It uses lithium ion battery packs, which are safe and stable with high energy density. It can be charged ...

Our EnergyPack P60/P100 models are designed to meet the demands of isolated and remote locations, providing a robust and efficient 100kWh battery storage solution that optimizes energy use and ...

Industrial-grade 30kW-100kWh modular energy storage with military LiFePO4 batteries. Hot-swappable expansion, 19" rack deployment, 5-layer safety & cloud monitoring.

The 100kWh rack-mounted C& I energy storage system provides safe, efficient, and expandable power for various commercial and industrial applications. Modular rack design allows flexible capacity ...

Housed in a weather-resistant IP55 cabinet, it combines a 100kWh LiFePO4 battery pack with 50kW charge/discharge capability, supporting real-time monitoring and remote control via Ethernet, RS485, ...

The intelligent air cooling system in the HighJoule 100KWh Outdoor Cabinet Series ensures optimal thermal management, maintaining battery efficiency and ...
