Engineered for exceptional reliability and efficiency, this robust 8kWh lithium-ion battery features an advanced built-in Battery Management System (BMS).

Determine the total voltage, capacity, and energy of a custom battery pack by entering cell specifications and series/parallel counts.

This powerful battery provides efficient energy storage, rapid charging, and long-lasting performance, making it ideal for electric bikes, scooters, and renewable energy applications.

Build your own lithium eBike battery using series and parallel configuration (S&#215;P). Calculate pack voltage, Ah, Wh and discharge capability based on cell values and layout.
