---

Easily upgradable from 500kW to 1MW of energy storage, storing up to 3.8MWh of energy, enough to power an average 3,600 homes for one hour.

The power distribution room includes PCS inverter, transformer cabinets, EMS cabinets (including power distribution parts), firecontrol, Controller, lighting, smoke, etc.

The design of the integrated energy storage high voltage box can isolate the battery from the external environment to avoid the battery receiving damage. It also ...

It is an one-stop integration system and consist of battery module, PCS, PV controler (MPPT) (optional), control system, fire control system, ...

The business covers the R& D, production and sales of PV modules,residential, commercial and large scale solar plants. We supply turn-key service for domestic customers and all the materials for ...

Stable 1MW Output, Ideal For Industrial/Commercial Peak Shaving And Grid Load Regulation. 3MWh Capacity Supports Long-Hour Backup (Powers Medium Factories For Hours) And Solar/Wind ...

The 1MW BESS systems utilize a 280Ah LFP cell and air cooling system which offers a better price to power ratio. Each BESS is on-grid ready making it an ideal solution for AC coupled ...

A highly efficient, modular, 1500 kVA N+1 3-phase UPS that provides the performance, flexibility, and maximized asset utilization today"s large data centers and mission critical applications require.

Relying on its cutting-edge clean power conversion technology, industry-leading battery technologyand grid forming technology, Sungrow focuses on integrated energy storage systemsolutions. The core ...
