---

We've combined a powerful 400V, 500V, or 600V lithium battery pack, an advanced liquid cooling system, and an Onboard Charger (OBC) into one unit. The cooling ...

This small high voltage lithium battery system could be used as UPS or solar energy storage system. HV design makes this system works more efficiency ...

Engineered for use with most type of battery terminal models, these cabinets can fit a wide variety of applications. This solution is completely customizable and flexible to support your application ...

This robust and efficient battery cabinet supports high voltage operations ranging from 400V to 1000V, making it the perfect choice for businesses and industries that require powerful and reliable energy ...

The battery cabinets are available in 5 different mechanical dimensions, are able to contain various combination of Batteries, up to maximum 63 blocks, connected ...

The construction characteristics of the recombination type lead-acid electric accumulators (valve-regulated hermetic accumulators); the absence of acid fumes and the virtual absence of gaseous ...

Highly efficient, modular, high-density 400kW (400/480V) 3-phase UPS that is ...

Get profiles of Vietnam Battery companies - leading, established, and top emerging players - with analyst insights, competitive matrices, and strategic positioning ...
