Kontena's High-Density Data Center solutions for a scalable, energy-efficient, and cost-effective operations for both HPC and mining sectors.

The Europe data center rack market is characterized by a moderately concentrated landscape, with a few major players holding significant market share. However, the market also ...

This report lists the top Europe Data Center Rack companies based on the 2023 & 2024 market share reports. Mordor Intelligence expert advisors conducted ...

The new EcoStruxure Pod Data Center and EcoStruxure Rack Solutions are now available globally. Organizations are deploying AI clusters ...

In April 2024, Rittal launched the TX Colo rack, targeting the fast-growing colocation data center market. The rack is a preconfigured, ready-to-use solution built for rapid deployment in large ...

This guide provides an overview of best practices for energy-efficient data center design which spans the categories of information technology (IT) systems and their environmental conditions, data center ...

Twenty years ago, 100+ kW per rack data centers would have been an irrational topic to present at data center events. Today it's not only possible, ...

As rack power densities continue to rise--especially with the proliferation of AI and machine learning--it's crucial to adopt a data-driven, scalable approach to data center design.

Nvidia, Google, and many other AI players are on the hunt for a new type of data center, in which a single rack delivers up to 1KW.

80kWh Data Center Rack for Mining in the Europe

With the 80KWh HV Lithium Battery Rack, you can control ...
