The collaboration between ZMS Cable and Green State Power (GSP) on the Naghlu 10 MWdc solar power project marks a significant step forward for renewable energy in Afghanistan.

The journey toward universal energy access is a crucial step toward building a sustainable and prosperous future for Afghanistan. Explore these inspiring stories and join us ...

This photo taken on Feb. 17, 2026 shows solar panels at a solar power plant in Surobi district of Kabul, Afghanistan. SUROBI/QARGHAYI, Feb. 26 (Xinhua) -- In Afghanistan, ...

At Solarvance, we design dust-resistant, high-altitude-ready solar systems tailored for remote and rugged regions like Afghanistan. Whether for a clinic in Herat, a school in Ghazni, or a telecom ...

At Zularistan Ltd., our mission is to build a commercially strong and future-ready clean energy platform that accelerates Afghanistan's solar transition.

Major projects now deploy clusters of 20+ containers creating storage farms with 100+MWh capacity at costs below \$280/kWh. Technological advancements are dramatically improving ...

The Islamic Emirate of Afghanistan on Thursday officially launched construction of a 40-megawatt solar power generation project in Mohammad Agha District of Logar Province, marking a major ...

Afghanistan Pursues Energy Independence with Solar Power Initiatives In a determined push to overcome chronic electricity shortages and reduce its reliance on imported ...

Project works are scheduled for completion within 18 months. Once operational, the solar plant will supply electricity to 40,000 households and the Mohammad Agha Industrial Park.
