The Arauco Solar I project continues to progress through its construction phase and is preparing to integrate with the existing Arauco wind complex, a development that will result in one of ...

In the last 9 years we have invested more than USD 1.1 billion to complete 18 renewable energy construction and expansion projects. We built the first large-scale wind farm in Argentina: the ...

Argentina's vast solar, wind, and hydroelectric renewable energy potential, give it the possibility to decarbonize its power sector and support its COP26 goal of increasing the share of ...

The wind farm is equipped with 29 VESTAS wind turbines of 3.4 MW of power and delivers an estimated energy generation of 390 GWh per year, enough to supply 110,000 homes in Argentina.

This will be the first hybrid park of its kind in Argentina and Latin America, significantly reducing greenhouse gas emissions. With the new ...

Argentina has significant wind and solar resources. The Patagonia region has one of the highest wind energy potentials in the world, with capacity factors in the range of 38 to 50 percent, while the ...

Argentina is making significant strides in its renewable energy journey with a pioneering hybrid wind-solar project taking shape in the La Rioja province.

For commercial and industrial (C& I) energy users and international investors, AlmaGBA represents not just a grid stabilization project, but a ...

Launched in early 2023, the RenMDI tender was aimed at gathering proposals for 620 MW of new renewable energy capacity that would help diversify Argentina's power mix and displace ...

Argentina Wind-Solar Energy Storage Power Generation Project

With an investment roadmap reaching USD 900 million, Genneia is advancing new clean-energy infrastructure, expanding its portfolio with battery ...
