With an MPPT current of up to 48A, it is perfect for all 182/210mm high-power PV modules and supports more than a 150% DC/AC ratio, bringing more yield. It ...

Supports manual disconnection of both DC input and AC grid connections, along with a one-key emergency stop function. Operating with a wide DC input voltage range and achieving over 98.7% ...

Can be used in both on- and off-grid systems, as well as in combination with a diesel generator Efficiency rates range from 95.5% to 98.5% ...

With the innovative circulating air cooling system including thermal balance, heat exchange and heat dissipation, SG150CX retains its exceptional performance even in high temperature. With various ...

Solatek Mega 150KW is a user-friendly powerful inverter with various working modes. It is easy to expand with its PV modular design. It supports simultaneously load, battery, power grid, diesel ...

This high-power inverter is capable of handling up to 150KW of power and supports a wide voltage range from 420V to 850V, making it suitable for both on-grid and off-grid applications.

Huawei smart PV controller, delivering more usable energy, allows businesses and commercial parks to save on electricity bills. Safer and more reliable, the solar inverter works in all weathers and locates ...

SolaX X3-HYBRID G4 delivers seamless on/off-grid switching, 150kW parallel capacity, and intelligent energy management. Perfectly integrates solar, storage, ...

Hybrid Inverter All-in-one hybrid inverter has a power range from 5kW to 150kW. This integrated solar hybrid inverter integrates photovoltaic, energy storage and ...
