Construction of Iovovik, the largest renewable energy project in BiH to date, was completed in 2023 and the project entered its trial operation phase in 2025.

The country is preparing to install its first battery energy storage system - with a capacity of up to 120 MWh. This is a huge step towards energy ...

Search all the battery energy storage system (BESS) projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Bosnia and Herzegovina with our comprehensive online database.

China has the largest grid-scale flywheel energy storage plant in the world with 30 MW capacity. The system was connected to the grid in 2024 and it was the first such system in China.

Search all the announced and upcoming battery energy storage system (BESS) projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Bosnia and Herzegovina with our ...

This project aims to implement a battery energy storage system (BESS) for EPBIH, aimed at enhancing the decarbonisation of the energy sector in Bosnia and Herzegovina.

Bosnia and Herzegovina has seen 12% annual growth in renewable energy capacity since 2020. But here's the catch - solar and wind farms can't operate 24/7. The Banja Luka storage project acts like ...

Bosnia and Herzegovina is set to have its first battery energy storage systems installed in the transmission network, which will provide ...
