---

The FX-T872GF series solar modules feature advanced Topcon 16BB half-cut bifacial technology with double glass construction, delivering superior performance for industrial and utility-scale solar ...

Better light trapping and current collection to improve module power output and reliability. Excellent Anti-PID performance guarantee via optimized mass-production process and materials control. Module ...

Featuring advanced N-type TOPCon cell technology, this module delivers superior power output, reduced degradation, and excellent low-light performance--making it ideal for both residential and ...

Among our product portfolio is the High-Power Density low-glare module (GMD series), 3-in-1 Building-Integrated solar roof materials (BiPV series), Bi-Facial double glass Fire Test Class A modules (DG ...

The connection between photovoltaic module and photovoltaic module bracket should be in the form of fixed aluminum alloy press block standard parts, rail groove insertion or bolt fixing, and the module ...

Bifacial ratio reaches 80%,30% more module power generation than ...

Nominal bi-facial module gain coefficient can run from 5% to 30% or more, depending on the installation height and the amount of indirect irradiance. It is recommended to design the electrical circuits with ...

This breakthrough PV product is made up of 60 bifacial mono-crystalline silicon cells with up to 20.5% module efficiency on each side. The total rated power output of the panel will range from 283 Watts ...

Type: DMxxxM10RT-B60HBB Power Range: 490 - 505 W Max. Efficiency : 22.8 % Bifacial Module Application Up to 25 % higher electricity yields due to active cell technology in bifacial glass/glass ...

# Bifacial double-glass module specifications

Designed with durability and longevity in mind, the JAM54D41-440/MB incorporates dual 1.6 mm heat-strengthened glass layers on both front and back for superior ...
