CAL DOGE has claimed nearly \$1 billion was taken from a California solar panel program and funneled into Democratic voter registration and activism. The report, out Thursday, argues \$928 ...

If you've made the decision to invest in renewable energy, the next step is deciding who to trust with your project. At the forefront of the renewable energy sector in Malta, Solar Solutions was set up in ...

California has the largest solar market in the U.S. and has been a longtime champion of solar because of the many economic and environmental benefits it provides, including billions in local investment.

As of 2017, renewables represented 4.9% of gross inland energy consumption and 6.6% of gross electricity generation in Malta, some of the lowest shares in the European Union. Most of the renewable energy generated in Malta is solar energy, with some wind and Combined Heat and Power (CHP) generation. While the potential for solar and wind energy is substantial according to the EU, concerns over the loss of li...
