After much research, we landed on the IKEA IVAR shelf system, which appealed for its solid pine makeup (particleboard gives me the ick) and friendly price tag.

In this case I think the bottom shelf in the cabinet will pull itself off the sides first. As the ikea boards aren't good and the ikea locking screws will just pull out of the board first when overloaded.

How much weight can IKEA Sektion wall cabinets hold (safely)? We have hung two 30" wide, 40" tall cabinets in the laundry above the washer and dryer. The cabinets have no support on either side, but ...

Ikea's Besta cabinets are designed to hold up to 33 lbs per shelf in a regular situation, and up to 66 lbs in a reinforced set-up. It's recommended to distribute the weight evenly along the shelf and make ...

As long as you follow the assembly instructions fully and the weight is evenly distributed then yes it will hold what IKEA states. The tests that IKEA put their products through are extremely rigorous.

Ikea often publish recommendations for some items, but at the end of the day you are going to have to make your best guess. Think about static and ...

The evidence is consistent: IKEA Kallax storage cubes hold significantly more weight than Target Project Life cubes. With a tested capacity of up to 22 pounds per cube and a structurally sound frame ...
