The project, a major part of the Oasis de Atacama platform, combines 77 MW of operational solar PV with a 430 MW/3.5 GWh battery energy storage system (BESS) in Chile's ...

Discover how Chile's leading supercapacitor technology is transforming industries with fast-charging, high-efficiency energy solutions.

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum ...

Grenergy Renovables, an independent renewable energy company based in Spain, is delivering the world's largest hybrid solar and ...

Chile has emerged as a world leader in hybrid systems and standalone energy storage since implementing its Renewable Energy Storage and Electromobility Act in 2022.

With transmission lines at overcapacity and permitting delays slowing the development of new grid infrastructure, battery energy ...

Energy company Generadora Metropolitana--owned by Chilean developer AME and France's EDF--starts building Dune Plus, a ...

Construction of the standalone project is expected to start in the first quarter of 2025 and powered as soon as Q1 2026, and will be one of the first projects of its kind to reach ...

With its proprietary Elementa platform, Trina Storage integrates in-house lithium iron phosphate (LFP) battery cells, intelligent liquid cooling, and advanced safety systems to ...

Chilean capacitor solar container energy storage system manufacturer

With 23 energy storage projects already approved, totaling an impressive 3,000 MW of capacity, Chile is at the forefront of innovation and efficiency ...
