We provide professional photovoltaic and solar energy storage solutions to customers across Europe, including Poland, Germany, France, Czech Republic, Slovakia, Hungary, Lithuania, Latvia, and Estonia.

During the exercise, the team successfully installed two POLARIS laser communication terminals on two vessels, achieving a radio-silent, unjammable and undetectable communication link ...

As Baltic nations accelerate their green transition, Lithuania stands out with pioneering container energy storage projects. These mobile power solutions are redefining how we store and distribute renewable ...

Mobile power stations can be created by equipping containers with solar panels, batteries, and inverters. These stations can be deployed for temporary events, construction sites, or emergency power ...

Our certified solar specialists provide round-the-clock monitoring and support for all installed photovoltaic container systems and containerized BESS solutions.

Shipping container solar systems are transforming the way remote projects are powered. These innovative setups offer a sustainable, cost-effective solution for locations ...

The Solarfold photovoltaic container can be used anywhere and is characterized by its flexible and lightweight substructure. The semi-automatic electric drive brings ...

Due to its robust construction and its own weight, the Solarcontainer already offers sufficient protection against lifting or shifting without a foundation. For higher ...

What's happening in Lithuania's Energy Community? Lithuania's energy community framework is evolving, with a focus on facilitating participation and oversight. Additional measures are needed to ...

Construction of solar container communication stations in Lithuania

We have deployed Solar Power Container units at three of our mines and the results have been outstanding. The ease of transportation and short installation ...
