Estimated small scale solar photovoltaic generation and small scale solar photovoltaic capacity are based on data from Form EIA-861M, Form EIA-861 and from estimation methods ...

Renewable energy statistics 2025 provides datasets on power-generation capacity for 2015-2024, actual power generation for 2015-2023 and renewable energy balances for over 150 countries and areas for ...

On the good side, solar continued its run of astonishing growth, generating 35 percent more power than a year earlier and surpassing hydroelectric power for the first time.

Participants are required to use the provided dataset to analyze, visualize, and predict solar energy generation and weather patterns. The goal is ...

Find up-to-date statistics and facts on the global solar photovoltaic industry.

Solar continues to dominate new electricity generation capacity added to the grid in the United States, according to the Energy Information ...

The latest government data discusses U.S. solar energy capacity, efficiency, and available homeowner tax credits as well as renewable energy ...

US Solar Market Insight is a quarterly publication of Wood Mackenzie and the Solar Energy Industries Association (SEIA).
