TBEA has built China's only complete set of electric power and energy industry chain, covering coal, polysilicon, silicon wafer, component, grid inverter, static var generator, and photovoltaic power station.

From "time and space saving" during construction to "efficient and safe" during operation, TBEA New Energy's integrated AC/DC energy storage solution has raised the efficiency of energy storage ...

Proud to announce that we have secured the contract for a major 660MWh Battery Energy Storage System (#BESS) + 83MW #PV project in northern Chile, near Vallenar in the #Atacama Region.

The total investment of the two projects exceeds 1.92 billion yuan. On December 22, TBEA Abu announced that in order to seize market opportunities and speed up the development of scenery ...

TBEA announced plans to invest in large-scale renewable energy projects, including a 1 GW solar power plant with battery storage and a 2 GW ...

TBEA Sunoasis Co., Ltd showcased its brand-new PV storage solution themed "Digital and Smart PV Storage Leading to Zero Carbon", at its new energy booth circled by large, bustling crowds coming ...

TBEA's customer base has expanded to include entities involved in renewable energy projects, such as solar and wind farms, and industries requiring advanced materials.

In the commercial and industrial market, TBEA invests in integrated solutions that connect solar generation and storage in the same ecosystem.

Addressing the need for robust, stable, safe, and cost-effective grid-forming string energy storage systems, TBEA introduces its energy storage ...
