All of the products we use on this container are DIY, and you can easily install them on your container.

Among the innovative solutions paving the way forward, solar energy containers stand out as a beacon of off-grid power excellence. In this ...

We are committed to excellence in solar container and energy storage solutions. With complete control over our manufacturing process, we ensure the highest quality standards in every solar container ...

Ruggedized outdoor DC UPS backup power systems for surveillance, telecommunications, and remote installations. Weather-resistant with solar ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

If you already have 12v equipment you're best to stay with a 12v system and plan accordingly. 12v will require more expensive controllers than 24v because of the amperage needs ...

12V solar systems are a versatile option for powering various applications. Whether you're looking to electrify your RV, boat, or small off-grid cabin, a 12V solar system ...

Solarabox is built to solve project power needs. The system is modular and easily scalable: you can add multiple units to increase output, and it supports on-grid, off-grid, and hybrid configurations.

A mobile solar container can provide clean, off-grid power to remote locations, construction camps, island resorts, and field operations. The systems ...
