Dragonfly Energy's focus on deep-cycle lithium batteries addresses critical RV and marine power needs. While their solid-state development holds future potential, current users benefit from ...

Dragonfly batteries significantly outperform legacy lead-acid batteries with more than double the power in the same physical space, 100% depth of discharge, 5x ...

While lithium still greatly outperforms lead-acid batteries in cold situations, they cannot receive a charge when internal temperatures are too cold. Our batteries are designed to sense their own temperature ...

Dragonfly Lithium Batteries outperform lead-acid counterparts with higher energy density, faster charging, and longer lifespans (3,000+ cycles). They maintain consistent voltage output, weigh ...

Dragonfly Energy has launched a new lithium iron phosphate (LiFePO₄) battery designed specifically for rooftop photovoltaic (PV) systems and off-grid ...

The Dragonfly Energy DF10012 battery is the perfect drop-in replacement for your application, whether it be RV, marine, or off-grid. At just 31 pounds, the battery ...

Battleborn is Dragonfly's line of consumer lithium batteries. They are known for quality batteries and good customer service...at a price.

Dragonfly Energy Corporation, founded in 2012 in Reno, Nevada, is a premier North American lithium-ion battery manufacturer. Specializing in LiFePO₄ systems under the Battle Born Batteries brand, ...

Nevada-based Dragonfly Energy has sold over 400,000 lithium batteries, revolutionizing the RV industry. The company's dry electrode ...
