Engineered for energy freedom: reliable off-grid power that grows with your needs. Highjoule Off-Grid Solution integrates three core components: photovoltaic generation systems, energy storage units, ...

Discover the Foldable Solar Container offering lightweight, efficient, and portable renewable energy. Ideal for outdoor adventures, emergency backup, and remote work sites. Harness ...

Manages dual 16.2 kWh lithium battery banks, and automatically orchestrates power flow between solar, battery, and backup generator inputs. Engineered to maximize every ray of sunlight and deliver ...

We offer two types of solar containers that differ in design and power output. Besides our flagship, auto-foldable container, we also offer the manual version of this unit.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Solarabox is built to solve project power needs. The system is modular and easily scalable: you can add multiple units to increase output, and it supports on-grid, off-grid, and hybrid configurations.

Our Solarfold(TM) containers can be fully deployed and operational in under 6 hours. The automated unfolding system allows for quick setup without needing extensive technical expertise or heavy ...

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

This is a detailed walk-through of the planning and installation of our 3kW - 5kWH - 120V off-grid solar system that powers a rehabbed shipping container.

It integrates advanced photovoltaic modules, inverters, and electrical cabinets into a compact and functional

Duge solar container outdoor power

unit. Ideal for remote areas, emergency power supply, and various off-grid applications, ...
