For regions with an abundance of solar energy, solar thermal energy storage technology offers tremendous potential for ensuring energy security, minimizing carbon footprints, and reaching ...

That's the reality dawning in Sarajevo as energy storage meets photovoltaic power generation. With rising electricity prices (up 18% since 2022 according to Bosnia's energy regulator), businesses and ...

It offers high-capacity energy storage and energy conversion efficiency, tailored for commercial and industrial users. It adapts to dynamic electricity consumption patterns and optimizes energy use, ...

Several office buildings in Novo Sarajevo, once notorious for poor heating efficiency, have been retrofitted with insulation, smart lighting systems, and energy-efficient HVAC units.

Containerized energy storage solutions now account for approximately 45% of all new commercial and industrial storage deployments worldwide. North America leads with 42% market share, driven by ...

Our certified specialists provide support for mobile photovoltaic container systems and energy storage container installations across Europe. Subscribe for latest insights on mobile photovoltaic containers, ...

Hybrid energy storage system challenges and solutions introduced by published research are summarized and analyzed. A selection criteria for energy storage systems is presented to ...

As Sarajevo embraces renewable energy solutions, the demand for reliable energy storage systems has skyrocketed. This article explores the key players shaping Bosnia and Herzegovina's energy storage ...

Whether the microgrid is one circuit within a building, a mobile power station, or an entire campus, our energy storage solutions can be configured to meet the power needs of any project and are being ...

Energy storage device in Sarajevo office building

We specialize in large-scale energy storage systems, mobile power stations, distributed generation, microgrids, containerized energy storage, photovoltaic projects, photovoltaic products, solar industry ...
