The energy storage system is essentially a straightforward plug-and-play system which consists of a lithium LiFePO₄ battery pack, a lithium solar charge ...

Energy Storage System Products List covers all Smart String ESS products, including LUNA2000, STS-6000K, JUPITER-9000K, Management System and other accessories product series.

Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best return on investment.

With integrated lithium batteries, inverters, and energy management systems, this solution ensures reliable power supply, peak shaving, and renewable energy storage.

The XF320 lithium iron phosphate battery adopts military-grade cell design, integrating an intelligent MPPT controller that maintains up to 95% charging efficiency even in rainy weather.

The EnerC+ container is a modular integrated product with rechargeable lithium-ion batteries. It offers high energy density, long service life, and efficient energy release for over 2 hours.
