Powered by 5G Broadcast technology and leveraging Estonia's existing high-power, high-tower broadcast infrastructure, Pocket Siren can ...

Nov 17, 2024 · Energy consumption is a big issue in the operation of communication base stations, especially in remote areas that are difficult to connect with the traditional power grid, ...

To this end, this paper provides a comprehensive exploration of the technological solutions and strategies necessary to build and maintain resilient communications networks that can withstand and ...

This technical approach enables disaster-response communication systems to interoperate seamlessly with existing LTE-based infrastructure and ...

This paper proposes a Bayesian network method to evaluate the post-earthquake functionality of communication base stations. The method considers the dependence between the ...

Estonian operator Elisa said it equipped nearly 100 base stations with new lithium batteries integrated with an Artificial Intelligence (AI)-based ...

We develop a prototype of a proposed mobile base station and test its operation in an outdoor environment. The experimental results provide a sufficient data rate to make an independent mobile ...

Thereafter, the feasibility of deployment and operation of an operator-independent emergency system (ES) integrated with balloon-based lightweight LTE eNodeB is analyzed to ...

Mobile base stations (COWs - Cell on Wheels) are deployed to the affected area. Satellite-supported

Estonia LTE emergency communication base station hybrid energy earthquake relief

emergency stations provide backup traffic ...
