# Evaluation of large-capacity photovoltaic panel power bank

Waterproof Charging Capabilities Final Thoughts on Our Solar Bank Review For starters, it's important to know the difference between a solar power bank and a solar charger. To put it simply, a solar charger uses a solar panel to charge devices; there is no backup battery. This is perfect for extended camping or backpacking trips because they're lighter, and larger panels keep your personal electronics charged up while t... See more on thebrokebackpacker
