USA TODAY reporting in 2023 found that at least 15% of U.S. counties had limited the construction of new wind or solar projects. Now, at least 24% of counties - nearly one in four - have...

Starting with the direct tax implications of HR 1, this strategy of energy subtraction has undermined solar and storage projects across the country. The Department of Energy has cancelled ...

A nationwide analysis by USA TODAY shows local governments are banning green energy faster than they're building it. At least 15% of counties in the U.S. have effectively halted new ...

As the number of wind and solar farms increases, so does opposition in the rural areas where they're being built. While more counties and townships passed restrictions in the last year, ...

A new analysis finds that more than \$14 billion in clean energy projects in the U.S. have been canceled this year.

President Donald Trump on Wednesday said his administration will not approve solar or wind power projects, even as electricity demand is outpacing the supply in some parts of the U.S.

Trump signed into law the One Big Beautiful Bill Act, a massive tax and spending package that ended subsidies for wind and solar energy projects ...

Mr. Trump has for years dismissed wind turbines and solar panels as ugly and expensive. In July, Republicans in Congress phased out federal tax credits for wind and solar power.

USA TODAY's analysis found 15% of counties nationwide now have some impediment to new utility-scale wind and solar energy. Gauging those ...

Has the country banned solar power generation

At least 15% of counties in the U.S. have effectively halted new utility-scale wind, solar, or both, USA TODAY found. These are not the solar panels you might have on your house but installations ...
