It also has an integrated energy storage system, which works like a battery to store electricity that can be readily dispensed to an EV when needed.

We are excited to support Huawei Singapore and SP Group in bringing Singapore's first liquid-cooled, ultra-fast EV charger to Temasek Polytechnic by Q4 2025.

The charger will have at least four charging points and will also be augmented by an integrated energy storage system to provide additional power.

Huawei and SP Mobility deploy a 480kW charging station with integrated energy storage at Temasek Polytechnic, offering a scalable model for high-power EV infrastructure in locations ...

[SINGAPORE] China tech company Huawei and Singapore energy company SP Group debuted the city-state's first "ultra-fast" electric vehicle (EV) charger with a battery energy storage ...

[SINGAPORE, 6 Feb 2026] - Huawei and SP Mobility have launched Singapore's first ultra-fast electric vehicle (EV) charging enabled with battery energy storage system (BESS), at Temasek Polytechnic. ...
