A turnkey waste-heat-to-power system is now available, fully integrated inside a 40-foot shipping container and in near-new condition with minimal runtime. This self-contained unit pairs a Hurst ...

Originally launched for limited markets in 2021, the 40-ft containerized generator sets were engineered for easy transportation, simple ...

A container-type fuel cell system for power generation, characterized in that an explosion-proof fan performing an air conditioning function inside the container is provided on the...

In this video, we take you on an exclusive tour of the innovative substation container--an essential component in modern power distribution.

From standard ISO containers to acoustic generator enclosures, our experienced Caterpillar engineers will work with you to design a custom, assembled enclosure for your diesel or gas generator set.

Ever wondered how a shipping container can power an entire event or even a remote community? The answer lies in the revolutionary world of ...

Simply put, dual packs are two parallel generators in one ISO container: Two 500 kW generators could be paralleled to achieve a 1000 kW output, or two 625 kW ...

At MODS, we design and fabricate high-performance generator and power units built from shipping containers. Our solutions provide reliable energy generation ...

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application (power generation only or CHP) and ambient ...

Foldable Photovoltaic Power Generation Cabin is a containerised solar power solution. Combining the

Inside the power generation container

features of solar power generation and mobility, it provides electricity all over the world.
