---

single glass modules with fully-tempered front glass have higher impact resistance and mechanical strength, and are less possibility to burst when used outdoors;

The JA Solar JAM66D45-625/LB is a high-performance 625 W solar module designed to maximize energy yield in commercial and utility-scale projects. Featuring advanced N-Type TOPCon bifacial ...

Higher power, bifaciality, efficient production under extreme conditions, combined with the lower degradation, no LID and LeTID effects and a glass-glass structure of Jinkosolar's N-type Tiger Neo ...

TCL's N-type bifacial double-glass panels deliver high efficiency, strong durability, and sleek all-black design, making them a premium choice for homeowners wanting long-lasting, high ...

Dual glass is the preferred structure for the rear side cover of the N-type modules because the glass-glass version can maximize the advantages of the N-type.

Excellent Anti-PID performance guarantee via optimized mass-production process and materials control. Module power increases 5-25% generally, bringing significantly lower LCOE and higher IRR. The N ...

Type: DMxxxM10RT-B60HBB Power Range: 490 - 505 W Max. Efficiency : 22.8 % Bifacial Module Application Up to 25 % higher electricity yields due to active cell technology in bifacial glass/glass ...

Quality Guarantee Natrual symmetrical bifacial structure bringing more energy yield from the backside. Stronger water resistance, greater air impermeability to extent module lifespan.

This module uses advanced N-Type TOPCon cell technology, which reduces light-induced degradation and improves performance in both strong and low-light conditions. The dual-glass construction adds ...
