Israel has awarded contracts for 1.5 GW of high-voltage battery storage capacity across three regions, marking a significant milestone in the country's energy transition.

The alliance will see El-Mor undertake the design and construction of battery energy storage systems (BESS) and related infrastructure for multiple projects, totaling 1.5GWh in capacity ...

Yesha is one of the component projects of Solar + Storage 2 in Israel. The Yesha project (est. 2024) is a first of its kind agro-solar platform that optimizes land use to produce high-yield ...

In a major step toward renewable energy integration, Israel has awarded 1.5 GW of battery storage capacity. The winning bidders, including ...

El-Mor will provide EPC services for multiple battery energy storage system (BESS) projects totaling 1.5GWh in capacity and 300MW in power. These landmark installations include the ...

HiTHIUM, a global leader in long-duration energy storage technology, has announced a strategic cooperation agreement with El-Mor Renewable Energy, one of Israel's largest EPC ...

HiTHIUM has partnered with El-Mor Renewable Energy to develop a 1.5GWh long-duration energy storage solution in Israel, enhancing renewable energy reliability.

Israel has awarded 1.5 GW of energy storage contracts across 11 projects, with a total investment of \$840M. The projects, set to be operational by ...

Under the agreement, El-Mor will design and construct battery energy storage systems (BESS) and related infrastructure for multiple projects, totaling 1.5GWh in capacity and 300MW in ...
