VRLA (Valve Regulated Lead Acid) batteries are lead batteries with a sealed safety valve container for releasing excess gas in the event of internal overpressure. Their development was aimed at limiting ...

Available in 100 kWh and 200 kWh capacity models, these cabinets ensure stable operations, with pre-set charge and discharge cycles. With 280Ah cells, the ...

Designed to support grid-tied and off-grid scenarios, the Hybrid ESS cabinet offers seamless integration and maximized space utilization, making it an ideal choice ...

Built with cutting-edge lithium-ion technology, this battery ensures efficient energy storage, long lifespan, and seamless integration with renewable energy systems.

Engineered for outdoor installations, the L3 HVR-60KWH-60K boasts an IP55 rating, ensuring reliable performance in various environmental conditions. Its ...

Next-generation battery management systems maintain optimal operating conditions with 45% less energy consumption, extending battery lifespan to 20+ years. Standardized plug-and-play designs ...

Manufactured in our factories, with Italian design. We are an Italian company with a clear vision: to transform the way energy is produced, stored and used. Efficiency, savings, storage for ...

This easy to install cabinet adds one or two 48 Volt battery strings and up to a 200AH battery. It seamlessly abuts your existing cabinets and its compact ...

The construction characteristics of the recombination type lead-acid electric accumulators (valve-regulated hermetic accumulators); the absence of acid fumes and the virtual absence of gaseous ...

Integrated design with high power density, requiring minimal installation space and providing flexibility for

Italian lead-acid battery cabinet 60kW

various setups. Comprehensive safety features, including multi-level fire prevention and real-time ...
