Solarfold amortises very quickly, whether operating in Italy, northern Germany or in Austria; and guarantees ideal energy yields - whatever the weather. It's an ...

Italy is located in southern Europe on the Apennine Peninsula. Its distinct shape, resembling a kicking boot, makes it easy to recognize it on maps or even from space.

SolaraBox is built to solve project power needs. The system is modular and easily scalable: you can add multiple units to increase output, and it supports on-grid, off-grid, and hybrid configurations.

Mobile solar containers offer a sustainable and adaptable solution for off-grid power needs that provide energy access in remote locations. It combines the portability of a large capacity ...

All-encompassing, fast, and resilient solution for disaster preparedness. A ready-to-install 2-3 kVA power module with 4-6 solar panels and lithium battery storage. ...

Learn what makes solar containers truly weather-resistant, from panel durability to battery protection, and how to choose the right system for harsh environments.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

The Mobil-Grid [®] is the ideal solution for use in isolated areas, for large ground-mounted generators or for parks connected to the grid. For use on isolated sites, ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks ...
