Aptech Africa has successfully installed a 150 kWp solar photovoltaic (PV) system paired with a 217.62 kWh Alpha ESS battery bank at Juba Military Hospital, in partnership with the ...

Our new solar system at Juba Military Hospital will save lives and money, reduce reliance on fuel-powered generators, lower energy costs, enhance patient...

The United Nations Development Programme (UNDP) in South Sudan, in collaboration with the Ministry of Health with funding from the Global Fund, has installed solar power to ease ...

Juba Military Hospital has officially commissioned a new 150 kWp solar PV system integrated with a 217.62 kWh battery bank, marking a significant step towards sustainable energy in ...

By providing dependable electricity, reducing fossil fuel dependence, and empowering communities, solar energy is paving the way for Juba's energy ...

From site preparation to commissioning, our team worked closely with local partners to ensure the system meets the hospital's demanding operational needs day and night.

Juba Military Hospital in South Sudan now boasts a robust 150 kWp solar PV system paired with a 217.62 kWh battery bank, thanks to Aptech Africa. This hybrid setup ensures ...

The Juba Military Hospital marked a milestone, the official launch of its new 150 kWp Solar PV system paired with a 217.62 kWh battery bank from ...

The Juba Solar Power Station is a proposed 20 MW (27,000 hp) solar power plant in South Sudan. The solar farm is under development by a consortium comprising Elsewedy Electric Company of Egypt, Asunim Solar from the United Arab Emirates (UAE) and I-kWh Company, an energy consultancy firm also based in the UAE. The solar farm will have an attached battery energy storage system rated at 35MWh. The off-taker is the
