-----

Alliant Energy secures grid connection agreement for 130 MW battery storage at former Lansing coal plant site, targeting December 2026 operations.

Explore high voltage battery packs, wall mounted lithium batteries, and ESS cabinets from Hoenergy -- your 2025 Global Tier 1 Energy Storage Provider.

Global demand for energy storage is surging. Lithium-ion leads today, but new contenders like sodium-ion, flow, and gravity systems are ...

Long-duration energy storage (LDES) is a key resource in enabling zero-emissions electricity grids but its role within different types of grids is not ...

LG Energy Solution (LGES) will manufacture lithium iron phosphate (LFP) energy storage system (ESS) batteries for Tesla at its Lansing, Michigan facility.

This report demonstrates what we can do with our industry partners to advance innovative long duration energy storage technologies that will shape our future--from batteries to hydrogen, supercapacitors, ...

Renewable energy integration and decarbonization of world energy systems are made possible by the use of energy storage technologies. As a result, it provides significant benefits with ...

U.S. carmaker Tesla's new Megafactory in Shanghai, dedicated to manufacturing its energy-storage batteries, known as Megapacks, launched production on Tuesday, marking a ...

Tesla's energy storage plant in Shanghai's Lin-gang Special Area commenced operation on Tuesday, as the assembly line started the production of the first Megapack unit. The Megapack, ...
