Our standard cabinet comes with fire system isolation, state-of-the-art liquid-cooling technology, combustible gas detection, and an FM200 fire extinguishing system, ...

With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they are ideal for telecom base stations, remote power supply, and containerized microgrids. Our outdoor cabinets are ...

Flexible Deployment, Space Savings: * Compact Outdoor Cabinet: Can be installed directly at the terminal edge or near the storage yard, close to critical loads (such as reefer areas, ...

From outdoor energy storage system cabinets to integrated cloud-based controls, EPC Energy has you covered. We want to help you create a sustainable future.

The Outdoor Cabinet Energy Storage System is a fully integrated solution that combines safe battery storage, intelligent power management, and weatherproof protection for solar and telecom applications.

It adopts door-mounted embedded integrated air conditioning, which does not occupy cabinet space, improves the available space of outdoor cabinets, has better structural integrity at the ...

Designed for harsh environments and seamless integration, this IP54-rated solution features a 105KW bi-directional PCS, optional air- or liquid-cooled thermal ...

Designed for industrial and commercial energy storage applications, these solutions ensure safety, reliability, and optimal performance with advanced liquid cooling technology and a 10+ ...

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC ...

Large-capacity outdoor energy storage cabinets for port terminals

Rittal outdoor enclosures provide optimum protection for your battery systems. Individually configurable outdoor solutions are available as standard products and can be supplied within 24 hours.
