Colombia's Ministry of Energy and Mines is considering launching tenders for storage co-located with solar and wind farms in La Guajira, a region ...

FTMRS SOLAR specializes in photovoltaic power generation, solar energy systems, lithium battery storage, photovoltaic containers, BESS systems, commercial storage, industrial storage, PV ...

This blog provides an overview of the solar and storage markets across key Latin American countries, highlighting major projects, policies, and trends shaping the region in 2025.

In Mexico, which has abundant solar and wind resources, energy storage facilitates the efficient use of generated renewable electricity. It smoothes out the variability and ensures a stable power supply.

In Brazil, Latin America's premier renewable energy market, the storage regulatory framework remains under development. In 2023, the National Electric Energy Agency (Aneel) initiated public consultation ...

This solar project, which upon completion will be Latin America's largest, will feature 1 GW of solar capacity, 192 MW of storage and a 315km high-voltage transmission line.

When you think of South America's energy sector, solar-drenched deserts and hydropower giants might come to mind. But here's the sizzling new trend: containerized energy storage systems (ESS) are ...

The Latin America Containerised Energy Storage System market is segmented based on key factors such as product type, application, end-user industry, and geography.

Explore high voltage battery packs, wall mounted lithium batteries, and ESS cabinets from Hoenergy -- your 2025 Global Tier 1 Energy Storage Provider.
