We have a range of modular off grid container, (or other) based power supplies. The beauty of our systems is they are completely expandible in terms of PV Panels, Inverter Kw output/phases and ...

The gel battery of this 120kw solar plant is designed with 180pcs ...

Mobility solar solution combines the features of solar power generation and mobility, making it easier to deploy small-scale new energy power plants. The system can be easily expanded and connected to ...

FTMRS SOLAR specializes in photovoltaic power generation, solar energy systems, lithium battery storage, photovoltaic containers, BESS systems, commercial storage, industrial storage, PV ...

An Off Grid solar Container unit can be used in a host of applications including agriculture, mining, tourism, remote islands, widespread lighting, telecoms and rural medical centres.

Our foldable solar containers combine advanced photovoltaic technology with modular container design, delivering rapid-deployment, off-grid renewable energy with industry-leading efficiency.

London, city, capital of the United Kingdom. It is among the oldest of the world's great cities--its history spanning nearly two millennia--and one of the most cosmopolitan.

Built within a standard container, it innovatively combines a foldable PV array, a high-efficiency energy storage system, and an intelligent energy management system.
