Chinese solar manufacturer Longi has developed a new "anti-dust" module for the commercial and industrial (C& I) market in Australia.

How does it work? Why does that snow sliding off explain everything? Much of it actually comes down to the frame. Here is more than ...

These modules are designed for both commercial and industrial applications and have been specifically developed to combat the issue of dust ...

Chinese solar PV manufacturer LONGi has launched a new version of its Hi-MO X10 solar module with improved field performance attributes, based ...

All praise to LONGi's industry transforming move of adopting Back Contact Technology in it's product range, LONGi's newly developed anti-dust ...

To respond to this crucial challenge, Longi introduced the Hi-MO X6 Anti-dust solution that has enhanced functionality and improved efficiency in C& I ...

Our field-proven bifacial modules deliver added performance benefits and long-term reliability. LONGi is more than a product supplier, offering project consultation, design, installation, procurement, ...

Photovoltaic (PV) power generation has become one of the key technologies to reach energy-saving and carbon reduction targets. However, dust accumulat...

Longi has launched its Hi-MO X10 anti-dust solar panel at the China (Jinan) International Solar Energy Utilization Conference. The new module ...
