The Alliance is helping the government-owned Electricity Supply Corporation of Malawi (ESCOM) deploy and operate a 20 MW battery energy storage system (BESS). This battery system will strengthen ...

The project, which is currently at 70 percent completion, involves the installation of batteries that will store power generated by Independent Power ...

Learn how a grid-integrated Battery Energy Storage System (BESS) enhances power stability in Malawi for a reliable and sustainable energy future.

The new hybrid storage system developed in the HyFlow project combines a high-power vanadium redox flow battery and a green supercapacitor to flexibly balance out the demand for electricity and ...

Electricity Supply Corporation of Malawi (ESCOM) has begun constructing a 20 megawatts (MW) battery energy storage system (BESS), ...

Malawi constructing first battery-energy storage system to enhance grid resilience against cyclone-related outages. 20-megawatt project backed by Global Energy Alliance for People ...

The \$16 million project, funded by the Global Energy Alliance for People and Planet (Geapp), started in November 2024 and expected to be ...

The Electricity Supply Corporation of Malawi (ESCOM) has announced a major leap in the country's energy modernisation with the delivery of 12 primary Battery Energy Storage System ...

Located adjacent to ESCOM's Nkhoma substation in Lilongwe District, our 60MW/240MWh BESS is scheduled for completion in the second half of 2027. Our BESS project will provide peak power, ...
