Mauritania has taken a new step in its energy strategy, signing two public-private partnership agreements in Nouakchott on Friday, September 12, for the construction and operation of ...

Mauritania has signed its first independent power producer (IPP) contract, a \$300 million agreement with Iwa Green Energy to develop a 60 ...

On 12 September 2025, Mauritania signed a \$300 million agreement with renewable energy developer Ewa Green Energy to construct a 220-megawatt (MW) hybrid power plant near Nouakchott.

The facility will comprise 160 MW of solar power and 60 MW of wind power, supported by a 370-megawatt-hour (MWh) energy storage system designed to stabilize supply.

Mauritania has signed a a \$300 million PPA agreement with Ewa Green Energy to build a hybrid power plant consisting of 160MW solar, 60MW ...

Mauritania has signed a \$300 million agreement with renewable energy developer Ewa Green Energy to construct a 220-megawatt (MW) hybrid power plant in the country. The project is ...

Mauritania launches a pioneering hybrid solar-wind plant with integrated storage, ensuring reliable power and accelerating universal energy access.

Mauritania signed a \$300 million deal with Ewa Green Energy to build a 220 MW hybrid power plant--160 MW solar, 60 MW wind--with a 370 MWh energy storage system. The plant will provide ...

The project will finance Mauritania's first large-scale battery energy storage facility, enabling the country to harness its abundant solar and wind resources for more reliable electricity.
