EcoDirect designs and supplies solar + battery projects in Micronesia. Our team has the tools and experience to get your next project designed and delivered.

A tender is open in Micronesia for the engineering, procurement and construction of hybrid solar minigrid systems at three villages on the Fefen Islands.

The Micronesia Containerized Energy Storage Vehicle BESS represents more than technical innovation--it's a catalyst for energy independence. As renewable adoption accelerates, scalable ...

FTMRS SOLAR specializes in photovoltaic power generation, solar energy systems, lithium battery storage, photovoltaic containers, BESS systems, commercial storage, industrial storage, PV ...

These devices play a crucial role in bridging solar power generation with energy storage solutions, especially when paired with lithium batteries. This ...

PVMARS provides a complete turnkey PV energy storage system ...

It can meet the company's application needs such as peak shaving, dynamic capacity expansion, demand-side response, and virtual power plants, and promote efficient energy utilization.

The 120kw solar energy system is suitable for area such as remote sea island, resort, farm where there is no public electricity or public electricity is not stable.

The project, initiated by the Government of the Federated States of Micronesia, aims to provide safe, reliable and sustainable power supply to these ...
