---

Dorce Prefabricated Construction designs and manufactures turnkey, containerized, and modular facilities specifically engineered for edge ...

What makes our MDC a high-value product to consider for your edge networking growth? Contact us to review the engineering, electrical, ...

Configure 5-150 kW per rack with flexible modular data center cooling systems (DX, chilled-water, adiabatic, free-cooling) for predictable efficiency in any region.

Whether you need edge computing in remote locations or scalable data capacity in metro areas--our modular systems are ready to adapt. Try our selection tool to find the right fit for ...

Modular racks form the physical backbone of many edge and micro data center deployments. These racks are designed to house servers, networking equipment and power ...

Evolving its EcoStruxure(TM) Data Center Solutions portfolio, Schneider Electric introduced a Prefabricated Modular EcoStruxure Pod ...

Edge data centers, typically consisting of one or more racks and offering increased computing and cooling power, are designed to bring data ...

Our experts will design a pre-engineered data center tailored to your capacity, cooling, and scalability needs -- delivered with clear specs, ...

Solutions can include Busway, UPS battery backup, surge protection, and pre-integrated power distribution to IT rack enclosures to simplify installation and commissioning.
