Norway's first battery strategy was launched on 29 June 2022. The strategy presents 10 measures for how Norway will further develop a coherent and profitable battery value chain.

It is the mission of the Battery Coast to bridge battery development and research from academia to industry in the entire battery value chain.

51 partners have gathered in the new research center that aims to accelerate a sustainable and circular battery value chain in Norway.

Norwegian research institutes are actively involved in development initiatives with the goal of propelling the progress of battery technologies, this involves research into various

UiA's researchers and educators cover most of the value chains linked to battery production, and a brand-new study program focusing on electrochemistry is being developed. Morrow and UiA share a ...

The current project will develop a holistic understanding of the fate of end-of-life batteries by addressing technical, economic, and design perspectives along the ...
