Berkeley Lab collects, cleans, and publishes project-level data on distributed* solar and distributed solar+storage systems in the United States. The data are ...

Customer-owned behind-the-meter solar photovoltaic systems have been an important part of California's energy transition, powering building loads with clean energy and feeding power back ...

As new development opportunities for traditional community solar continue to decline, community solar developers report increased interest in exploring community-scale solar and storage ...

The intention of the 'Photovoltaics Report' is to provide up-to-date information on the PV market and on efficiencies of solar cells, modules and systems. Moreover, data on inverters, energy payback time ...

The Energy Storage Report is now available to download. In it, you'll find the best of our content from Energy-Storage.news Premium and PV Tech ...

With the rise of solar and wind capacity in the United States, the demand for battery storage continues to increase. The Inflation Reduction Act ...

For solar-plus-storage--the pairing of solar photovoltaic (PV) and energy storage technologies--NLR researchers study and quantify the economic and grid impacts of distributed and ...

The National Renewable Energy Laboratory (NREL) publishes benchmark reports that disaggregate photovoltaic (PV) and energy storage (battery) system installation costs to inform SETO's R& D ...

Energytrend is a professional platform of green energy, offering extensive news and research reports of solar PV, energy storage, lithium ...

According to the February 2026 Electric Power Monthly report from the Energy Information Administration (EIA), the surge represents the largest single-year capacity addition in over two ...
