3. Market segment outlooks 3.1. Residential PV 1,088 MWdc installed in Q3 2025 Down 4% from Q3 2024 Down 4% from Q2 2025 The OBBBA tax credit rush has not yet translated to ...

The goal of this report is to curate complete life cycle inventories for the most recent year of each technology available in the public domain. The data collected may ...

Growing overcapacity in solar PV supply chain and fierce competition among producers led to 50% decrease in global PV module spot prices between ...

In this study, we present a cradle-to-grave LCA of a typical silicon U.S. utility-scale PV (UPV) installation that is consistent with the utility system features documented in the National Renewable Energy ...

A timely analysis of the evolution of solar PV system performance and reliability topics, considering recent advancements and challenges through a ...

NLR scientists study the long-term performance, reliability, and failures of photovoltaic (PV) components and systems in-house and via external collaborations.

The intention of the 'Photovoltaics Report' is to provide up-to-date information on the PV market and on efficiencies of solar cells, modules and systems. Moreover, data on inverters, energy payback time ...

The subset of respondents now must report monthly accounts for about 90% of photovoltaic (PV) activity in the United States, based on 2021 data. Data collected on both the ...

We categorize these data sets based on the specific aspects of PV system information they cover, such as environmental conditions, operational monitoring, image inspection and module ...

# Photovoltaic Panel Status Analysis Report

SETO has funded projects at national labs on lifecycle analysis of PV modules, cost models for module recycling, and more. Below are several of those projects and ...
