What Is A Solar Photovoltaic array?  
Series Connection of Modules  
Parallel Connection of Modules  
Series - Parallel Connection of Modules- Mixed Combination  
Sometimes the system voltage required for a power plant is much higher than what a single PV module can produce. In such cases, N-number of PV modules is connected in series to deliver the required voltage level. This series connection of the PV modules is similar to that of the connections of N-number of cells in a module to obtain the required vo...
