Since its inception, JA Solar DeepBlue series PV modules have undergone several product iterations, all while staying true to its core design concept of optimizing LCOE (Levelized Cost of Energy).

Photovoltaic panel 500W JA Solar JAM60D41-500/LB_FB bifacial (double-sided) - Full black (completely black) Blue 4.0 pro monocrystalline N-type Ja Solar. Check the best price and buy now!

Built with an 11 busbar design, this panel delivers reliable performance across various light conditions while the half-cell layout helps reduce internal power ...

Complete JA Solar 545W solar panel guide. Technical specs, bifacial performance, installation tips, pricing, and expert review of the JAM72D30-545/MB model.

Download data sheets, certificates, white papers, and more from the JA Solar Download Center - all important documents in one place.

Enhanced spectral response at longer wavelength boosts low-light performance, which can produce more than 1% additional power compared with conventional module at system side.

Key details include: - The modules use high-efficiency PERCIUM cells and 5BB solar cell design to provide high performance and lower cost of electricity. - ...

It expects to reach 100+ GW of capacity for wafers, 100+ GW for cells, and 100+ GW for modules in 2024. JA Solar has also established a division for photovoltaic materials, producing high- quality, ...

Assembled with 11BB PERC cells, the half-cell configuration of the modules offers the advantages of higher power output, better temperature-dependent performance, reduced shading effect on the ...

Product parameters of JA Solar photovoltaic panels

440W Higher power generation n-type with very Lower Better Temperature Better low irradiance
