Customers can customize power capacity, battery storage, inverter types, and auxiliary power sources like diesel generators or wind turbines to tailor the container for specific mission requirements.

Hybrid performance with a generator or an Energy Storage System makes the ZSC mobile solar containers as part of a microgrid solution. With paralleling capabilities with other energy sources, ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

We offer two types of solar containers that differ in design and power output. Besides our flagship, auto-foldable container, we also offer the manual version of this unit.

Why should you choose a modular solar power container? Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power ...

Solarfold allows you to generate electricity where it's needed, and where it pays to do so. The innovative and mobile solar container contains 196 PV modules with ...

The company said it plans to use the grant funding to ramp up production of the SolarContainer, BoxPower's turnkey microgrid product. ...

At SolaraBox, we design and manufacture advanced solar containers that bring clean, reliable, and mobile energy wherever it's needed. Built for multi-industry use, our systems replace costly diesel ...

These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells -- with optional diesel redundancy when regulatory or client requirements demand it.
