Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best return on investment.

Our containerized Battery Energy Storage Solution (BESS) provides a fully customizable and scalable power solution to meet your specific energy needs. Whether you need grid balancing, mini-grid ...

Each solar-powered shipping container generator is transportable, securable, and can be fully customized to your specific needs, ...

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.

At SolaraBox, we design and manufacture advanced solar containers that bring clean, reliable, and mobile energy wherever it"s needed. Built for multi-industry use, our systems replace costly diesel ...

With solar arrays installed and integrated into your electrical system you can fully power your shipping container with the power of the sun. This option can be ...

The Mobile Solar PV Container is a portable, containerized solar power system designed for easy transportation and deployment. It integrates advanced photovoltaic modules, inverters, and electrical ...
