On May 29, 2025, the Vatican City officially transitioned to solar power, marking a significant shift in the European energy landscape. The heart ...

Pope Francis has announced measures to transition Vatican City to using solar energy as its main source of electricity, as outlined in his latest motu proprio titled *Fratello Sole*, or "Brother Sun."

Italy has agreed to a Vatican plan to turn a plot of land north of Rome into a solar farm that will generate enough electricity to meet the needs of Vatican City.

The project aims to meet the full energy needs of both the Vatican State and Vatican Radio using solar technology integrated with agricultural activity.

With the Apostolic Letter "*Fratello sole*," issued motu proprio, Pope Francis provides for the construction of an agrivoltaic plant in the extraterritorial ...

Pope Francis has ordered the construction of a solar power plant to supply the Vatican's electricity needs. He did so with the apostolic letter in the ...

Italy agreed Thursday to a Vatican plan to turn a 430-hectare field north of Rome, once the source of controversy between the two, into a vast ...

Italy has agreed to a Vatican plan to turn a 430-hectare (1,000-acre) plot of land north of Rome into a vast solar farm that will generate enough ...

Vatican officials have estimated it will cost under 100 million euros (\$114 million) to develop the solar farm, and that once it is approved by the Italian parliament, the contracts to do the...

The Vatican is now completely powered by a farm that sports solar panels to help shade-tolerant crops thrive.

Solar panels in the Vatican

This new coupling of solar and ...
