This may be due to the disposable packaging that solar panels are stored and shipped in. Wooden pallets don't have the most stable ...

Pressure Causes Microcracks in Panels
Transporting Solar Panels Is A Delicate Process
Prepare For The Pickup Ahead
When Carrying A Panel, Don't Apply Pressure
So what do manufacturers do to ship panels without damaging them? Usually, to transport solar panels, a pallet is used. Here is how a good company packs it: o First panels go on the pallet bottoms up and the last one is placed front side up. o Corner protectors and foam pads across the frame are added. o Usually a piece of cardboard or plastic is p...
